ALEX MORGAN

Lahore, Pakistan | alex.morgan@example.com | +92 300 000 0000 | linkedin.com/in/alex-morgan-demo

PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on academic and project experience in data cleaning, exploratory data analysis, dashboard development, and reporting. Comfortable using Python, SQL, Excel, and Power BI to turn raw data into clear, practical insights. Interested in supporting evidence-based business decisions in a collaborative team.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy), SQL

Data Analysis: Data cleaning, exploratory data analysis, data visualization, basic statistics

Tools: Microsoft Excel, Power BI, Jupyter Notebook, Git

Other: Report writing, presentation skills, teamwork, problem-solving

EDUCATION

BS Computer Science | Example University, Lahore, Pakistan

2022 – 2026 (Expected) | CGPA: 3.45/4.00

Relevant Coursework: Database Systems, Statistics, Data Structures, Introduction to Machine Learning

PROJECT EXPERIENCE

Retail Sales Analysis Dashboard | Academic Project | 2025

- Cleaned and analyzed a sample retail sales dataset containing 10,000+ transaction records.
- Used Python and Pandas to identify sales trends, top-performing product categories, and monthly patterns.
- Built an interactive Power BI dashboard with KPI cards, filters, and charts to communicate findings.
- Presented key observations and recommendations in a short project report.

Student Performance Analysis | Academic Project | 2024

- Explored a public student-performance dataset using Python and Excel.
- Compared performance across subject areas and visualized relationships between study time and scores.
- Documented the analysis workflow and summarized limitations of the dataset.

INTERNSHIP EXPERIENCE

Data Intern | Demo Analytics Lab, Lahore, Pakistan

June 2025 – August 2025

- Assisted with formatting, validating, and organizing spreadsheet data for internal reports.
- Prepared weekly charts and summary tables under the guidance of a data analyst.
- Followed team procedures for file naming, documentation, and version control.

CERTIFICATIONS

- Data Analysis with Python – Example Learning Platform, 2025
